### THE "KEY" IS THE KEY TO YOUR SUCCESS

Our unique "Adjustment Key" allows you to level and adjust our Eterno Pedestal Supports WITHOUT removing the paver. This unique feature saves labor costs and reduces possible injuries from lifting the concrete paver.

2

### NEW SELF-LEVELING, BI-MATERIAL HEAD

Our unique self-leveling head allows the head to automatically compensate any gradient up to 5%, which reduces time needed to shim and create a perfectly flat surface.

3

### BLOCK SYSTEM

Block System indicates to installer when unit has safely reached its maximum height adjustment. A cut out is also part of this system that allows the installer to push in the safety tab that allows components to be released, if necessary.

4

### LOCKING COUPLING

Allows head to be locked into the threaded screw.

5

### BASE PRE-CUT LINES

Base bottom with pre-cut lines for easy and precise cuts when needed for corner placement situations.
